

## Unlock your students' creative potential on Chromebooks.

Leading Adobe apps available on Chromebooks give millions of students the tools they need to be creative. Students of all ages can use Adobe apps to create inspiring content of all kinds, from narrated presentations to visually stunning web pages and photography. And to help educators integrate these digital tools into their curricula, the Adobe Education Exchange offers lesson plans, tutorials, distance-learning projects, and more.

Discover key Adobe apps for learning.

### Adobe Spark

Spark for Education is the free web and mobile solution that enables teachers and students of all ages to easily create impactful visual stories in the form of graphics, web pages, and short videos. With features that offer enhanced data privacy, safe image search, and sharing restrictions, students and teachers can design in a safe, child-friendly environment.

Spark runs in a web browser on any desktop or laptop and is optimized to run on Chromebooks via the Chrome web browser. There's nothing to install.

To learn more about Spark for Education, visit [spark.adobe.com/edu](https://spark.adobe.com/edu).

### Adobe Photoshop Lightroom on the web

With Lightroom on the web, teachers and students can easily access, organize, and share photos to make school projects like presentations, videos, and websites more visually engaging. Lightroom on the web also allows students to edit photos in ways that show their unique perspectives—they can crop, make lighting and color adjustments, apply effects, and more.

To learn more about Lightroom on the web, contact your Adobe Authorized Education Reseller.

### Adobe Acrobat Online

Acrobat Online enables educators and students to easily create and convert files to PDF, combine and organize PDF files, comment and provide feedback on files, share documents, and more from any web browser. Students can also use Adobe Scan to quickly scan and submit school assignments.

To learn more about Acrobat Online, contact your Adobe Authorized Education Reseller.

# Learn, teach, connect, and collaborate with the community for educators.

Now more than ever, the world needs creative ideas. When students create their own digital content, they can amplify their ideas and increase their impact. And educators can foster creativity in their students and help them build digital skills.

The Adobe Education Exchange helps ignite creativity in curricula worldwide by connecting educators through distance-learning resources, professional-development opportunities, peer-to-peer collaboration, lesson plans across grades and disciplines, and so much more.

Check out these lesson plans and resources to integrate Spark, Lightroom on the web, and Acrobat Online into your curricula today:

### Create a personal narrative with Spark Video.

Students write narratives of sequenced events using key storytelling skills, and then they use Spark Video to turn their narratives into short animated movies. [See lesson plan >](#)

### Build a research presentation with Spark Page.

Students conduct research on at-risk ecosystems and create informative and persuasive multimedia presentations using Spark Page. [See lesson plan >](#)

### Create a mathematical graphic with Spark Post.

Students create a Spark Post graphic to represent their mathematical thinking and problem-solving in a visual way, using icons and text. [See lesson plan >](#)

### Design a photo collage with Lightroom on the web and Spark Page.

Students gather, edit, and organize photographs with Lightroom on the web and then present their collections using Spark Page to tell visual stories about meaningful events in their lives. [Learn more >](#)

### Collaborate and submit a group project with Acrobat Online.

Students create group-project portfolios, convert all file types to PDF, organize the pages, collaborate with peers and teachers using commenting features, and submit the collective work using Acrobat Online. [See how >](#)
